Welcome,

Stagecoach Station Venues offers many possibilities for your wedding. Whether you like trees to be a focal point or the farmhouse, several outside locations are available for large gatherings up to 300 guests. The historical late 1800's rock barn has a capacity of 100 guests on its lower level with up to an additional 50 on the upper level. Because of its approximately 10' wide and 10' tall arched doorways, additional guests may be seated in the lawn areas as well and still view the ceremony.

White poly chairs are available as are decorative arches and other items. A floor runner is also available as a base runner for each bride's particular style. Outside of the barn is the Stagecoach Truck Stage with a dance floor in front of it. Numerous tables of various sizes and chairs are surrounding this area. Two covered serving areas are nearby along with decorative lighting throughout the trees.

A vintage travel trailer is available for the bride and her matron of honor to change and relax, while the bridesmaids have their own secluded space to gather while waiting. If you want lawn games for your guests, an area for horseshoes, washers and cornhole is available.

We have recommendations we can give for bands or solo performers, DJ's, a wedding planner, photographers, horse-drawn carriage rides, photo booth rentals, bartenders, or caterers that we would be glad to share.
